RUSSELLS LUPINE

The new Russells Hybrid Lupine is the finest improvement in Perennials that we have ever seen. They are so far ahead of the old lupine that there is no comparison. The wonderful colorings are difficult to explain. Nearly all are in two color combination much the same as you find in some snapdragons. You will find rose and pink, pink and salmon, salmon and buff, pink and buff, old rose and light rose, blue and white, purple and yellow, purple and rose, and many other striking combinations. In thousands of plants it is hard to find any two with coloring exactly alike. We found that they came just right for Decoration Day for us. We sold \$125.00 worth of cut flowers from a year old bed of them. Hundreds of people came to see them bloom, resulting in many orders for plants this fall.

New Crop Seed 75c per oz.; \$10.00 per lb.

MRS. SCOTT ELLIOTT COLUMBINE

The finest strain of Columbine. Colors are mostly pastel. You will find various shades of pink and rose, yellow, white, orchid, light blue, red, in solid colors and two color combinations. All have long spurs.

New Crop Seed. \$1.50 per oz.

HARDY EARLY ENGLISH CHRYSANTHEMUMS

This is our Best Retail Sales Item. These early flowering Hardy English Chrysanthemums are taking the country by storm. Have never seen stock plants offered of these up to the present time. As a matter of fact we have imported all of ours at from 20 to 50 cents each for small plants besides import duty that we had to pay. We now have a surplus of some so that we feel that we could offer a few stock plants.

We are making the following offer which we feel is a very good one. Two each of 20 varieties in a wide range of colors for \$10.00. If you have some English Chrysanthemums send us your list so we won't duplicate.
